</table>
The M. L. Wolfrom award for the year 2001 will be presented to David C. Baker, Ziegler Professor of Chemistry at the University of Tennessee. The H. S. Isbell award for the year 2001 will be presented to Kevin G. Rice, Associate Professor of Medicinal Chemistry and Pharmaceutics at the University of Michigan. The awards will be presented at the National ACS Meeting in Chicago, Illinois. There will be a special symposium on Sunday afternoon, August 26, highlighting work by the award winners, as well as the traditional banquet on Monday evening, August 27.

The reception and banquet will be at the following address:
Womens Athletic Club (enter from Ontario Street)
626 N. Michigan Ave.
Chicago, Ill 60611
312-944-6123

The reception will start at 6:00 P.M., and dinner will start promptly at 7:30 P.M.. This should be a popular event and seating is finite; so get your reservation in soon. The ticket price is $50.

Please send your reservation by e-mail or fax or phone today, and pay for your ticket at your convenience. Of course there’s the usual way, when you register in advance or on site or purchase the ticket from Dr. Fred Brewer.

Please contact:
Professor Fred Brewer
Albert Einstein College of Medicine
Dept. of Molecular Pharmacology
Bronx, NY 10461-1988
Phone: (718) 430-2227
Fax: (718) 430-8922

DIVISION OF CARBOHYDRATE CHEMISTRY
ACS FUTURE PROGRAMS

Program Chair: Muthiah Manoharan, Isis Pharmaceuticals, 2292 Faraday Avenue, Carlsbad, CA, Phone 760-603-2381, Fax 760-929-0036, e-mail: mmanoharan@isisph.com

2002 SPRING MEETING ORLANDO, FL – April 1-5, 2001

Multivalent Carbohydrate/Protein Interactions. Fred Brewer, brewer@acom.yu.edu

Computer Modeling of Carbohydrates. Al french, afrench@nola.srrc.usda.gov

Aminoglycosides. Dev Arya, dparya@clomson.edu

Carbohydrate Therapeutics. L Bhattacharyya, LB@usp.org

Oligosaccharides in Food and Agriculture. Gillian Eggleston and Greg Cote’, gillian@srrc.ars.usda.gov

Nucleosides, Nucleotides and Oligonucleotides. Muthiah Manoharan, mmanoharan@isisph.com

General Contributed Papers. Muthiah Manoharan, mmanoharan@isisph.com

Contributed Papers: Poster Session. Muthiah Manoharan, mmanoharan@isisph.com

_______________________________________________________________

YOUR HELP IS CRITICAL!
We need it!

There has always been a small but very active group of individuals who have contributed to the programming of the Carbohydrate Division. If anyone has an idea for a symposium topic for future meetings, please contact any one of the officers listed in the front of this Newsletter.
Chair Elect: (one year term; vote for one)
   Rene’ Roy – University of Ottawa

Wolfrom/Isbell Awards Committee: (three year term; vote for one)
   Yuan C. Lee - Johns Hopkins University

Member at Large: (two year term; vote for two)
   Dev Arya -Clemson University
   Allen Bush-University of Maryland Baltimore County
   Samuel Danishefsky-Sloan-Kettering Institute

Councilor:
   Derek Horton – American University

Alternate Councilor: (two year term; vote for two)
   David Baker-University of Tennessee
BIOGRAPHICAL SKETCHES OF THE CANDIDATES
(Please refer to the ballot)

Chair-Elect:
Rene’ Roy — Professor Department of Chemistry, University of Ottawa, is the University of Ottawa, Faculty of Sciences, Researcher of the Year. His awards also include the Hoffmann-La Roche Distinguished Contribution to Medicinal Chemistry Award in 1997, and the Gifu Lectureship Award in Carbohydrate Chemistry in 1995. Prof. Roy’s interests include the application of synthetic carbohydrate chemistry to problems in glycobiology including vaccines, cancer, flu virus, anti-inflammatory, dendrimers, plant lectins, and cell adhesion.

Isbell/Wolfrom Awards Committee:
Yuan C. Lee — Professor, Department of Biology, The Johns Hopkins University. Professor Lee’s awards include the 2001 ACS Hudson Award in Carbohydrate Chemistry. Prof. Lee’s interests include the role of glycoconjugates in biological systems. He is interested in the structure-function properties of the carbohydrate moieties of glycoconjugates in signal transduction mechanisms.

Members-at-Large:
Dev P. Arya — Assistant Professor and Director, Laboratory of Medicinal Chemistry, Clemson University, 1999-present. Organizer “Nucleic Acid Therapeutics” symposium at Southeast ACS Meeting, Savannah, GA, September 2001; Carbohydrate division contributions: Chair, Nucleosides, Nucleotides and Oligonucleotides session, and Organizer “Aminoglycoside Antibiotics” symposium to be held at the ACS national meeting in Orlando, 2002.; Reviewer for NSF Instrument Facilities Award; ACS Project SEED Mentor/Coordinator; Research Interests: Nucleic Acids Chemistry and Biochemistry; Natural product chemistry; Mechanisms of drug action; Molecular recognition.

C. Allen Bush — Professor of Chemistry and Biochemistry, University of Maryland Baltimore Country. Professor Bush is currently a Member-at-Large of the Executive Committee of the Division of Carbohydrate Chemistry. His research interests include the application of high resolution NMR techniques to the study of carbohydrate polymers, with special emphasis on bacterial polysaccharides and lipopolysaccharides as candidates for vaccine development. He is co-organizer of a symposium on carbohydrate vaccines at the August, 2001 National ACS meeting in Chicago.
BIOGRAPHICAL SKETCHES OF THE CANDIDATES (Continued)

(Please refer to the ballot)

Samuel J. Danishefsky — Professor, Kettering Chair and Director, Laboratory for Bioorganic Chemistry, Sloan-Kettering Institute, New York. Professor Danishefsky’s interests include the syntheses of antitumor and antiinfective natural products, analogues, thereof, and syntheses of fully synthetic carbohydrate epitope vaccines with the goal of suppression of tumor recurrence. Among his many awards, Professor Danishefsky is a recipient of the American Chemical Society’s Hudson Award in Carbohydrate Chemistry.

Councilor:
Derek Horton — Professor, Department of Chemistry, American University, Washington, D.C., Isbell Chair in Natural Products Chemistry. Professor Horton is past Chairman of the Division of Carbohydrate Chemistry of the American Chemical Society, and currently a Councilor on the Executive Committee of the Division of Carbohydrate Chemistry. Professor Horton’s interests include carbohydrate & natural products chemistry, and organic synthesis of polyfunctional molecules.

Alternate Councilor:
David C. Baker — Ziegler Professor of Chemistry at the University of Tennessee. He has been associated with the Division of Carbohydrate Chemistry since the early 1980’s, serving in various positions, including Chairman during 1986-1987. Prof. Baker is active in affairs of the Division, having presented numerous papers, organized several symposia, and chaired many sessions during the national meetings. He has served as Alternate Councilor since 1998. He is the 2001 Melville L. Wolfrom Awardee.
NEW MEMBERSHIP APPLICATION
For
The ACS Division of Carbohydrate Chemistry

I wish to enroll as a member of the ACS Division of Carbohydrate Chemistry. I am currently a member or National Affiliate in good standing with the ACS.

Name (Dr., Mr., Mrs., Miss, Ms.) _________________________

Affiliation _____________________________________________
(University, Institute, Company)

Street Address _________________________________________

City _____________________ State______ Zip code______

Country (if not USA) __________________________

Business Telephone ___________________
Fax ___________________

E-mail address ___________________

ACS Membership Number_________________
(found on your ACS membership card or from the mailing label on your C&E News)

Please pass this information to your colleagues and friends!
Membership is free of charge for the first year; $10.00 per year thereafter.
